Dear Mr. Weisberg,

It's been a long time since I corresponded with you. Hope all is well!

My husband's career with Kelly-Springfield Tire Co., has now transfered us to the Midwest, a place I've never seen (a month ago). Freeport is in the upper north west corner of Illinois. This town is an oasis of people amidst the cornfields. Very Different.

Enclosed are clippings I've been meaning to send to you.

The recent clippings prompted me to send the other ones that I squired away.

Pres. Carter sure has his hands full - the Iranian Crisis; the Russians in Afghanistan.

Because of these events Ted Kennedy's campaign for President has been hurt.

Do you think Ted Kennedy would be a good President?

I watched the Republicans' presidential candidates Forum in Des Moines. Hope you saw it too. It was very interesting how John Anderson, now my Congressman, was the most eloquent and impressive. I've never voted for a

Republican, but he pounded good that night.

Best Wishes for you in this New Year!

Sincerely,

Barbara Godwin Riney
